Toronto, ON, Canada

TECHNICAL SKILLS

Working Knowledge: HTML, CSS, JavaScript, React.js, Node.js, Express.js, Ionic Framework, Web APIs, REST APIs, MySQL, PostgreSQL, Prisma ORM, Git, Github, Github Actions, AWS, Lambda, EC2, API Gateway, Cloudwatch, Python, Flask

Exposed To: Next.js, Redux, Django, TypeScript, Angular.js, Bootstrap, Styled Components, Test-driven Development (Jest, Python unittest), AWS SNS

EXPERIENCE

Full Stack Software Engineer - Contract

March 2023 – Present

multiplAI (Stealth Startup)

Remote, Toronto, ON

Building a platform to help automate parts of the job search process by leveraging AI, ML, and web scraping to deliver personalized job matches.

- Architected and developed a serverless backend platform with Python and Flask on AWS Lambda functions and API Gateway. Led implementation of automated tests for all backend endpoints with 90%+ code coverage. Consolidated access to Postgres cluster hosted on RDS through building a data layer on the backend.
- Implemented NextJS 13's new App Router, Server Side Rendering, and React Server Component to improve front end performance, halving initial page load times compared to the original architecture
- Built an automated job scraping platform leveraging Scrapy and Scrapeops for extracting data from various job sites through task automation on an EC2 cluster, resulting in 99%+ scraping success rates
- Took ownership of implementing a full SDLC throughout the planning and execution stages of the project. Employing continuous integration and continuous deployment (CI/CD) practices using Github actions resulting in a significant time savings of approximately 40 minutes per deployment.
- Collaborated within cross-functional teams utilizing Agile framework, engaging in rigorous code reviews, iterative Sprint cycles, daily standups, weekly updates, cross-team demo meetings, ticket scoping, retrospectives, and proactive problem-solving to ensure rapid deployment and iteration.

Frontend Engineer - Freelance

Feb 2023 – Present

Tidey Mitchener Consulting

Remote, Toronto, ON

Contributing to the creation of mobile-first, responsive application interfaces from wireframes and delivering a dynamic user experience through integrations with backend and third-party infrastructure.

- Implementing a mobile-first and responsive front-end with Ionic and Angular
- Creating high-performance communication channels with the backend to display data dynamically
- Integrating external platforms such as payment and email automation to enable a seamless user experience

Digital Services Senior Executive (Product Manager)

Feb 2017 – Feb 2021

Banglalink

Dhaka, Bangladesh

- Led strategic planning and execution processes, defining key metrics to drive business growth through apps and value-added services, consistently maintaining daily revenue above USD 75k
- Coordinated cross-functional teams and collaborated with technical teams to drive product development and formulated comprehensive distribution strategies for online and offline channels.
- Managed and optimized customer journeys for 100+ third-party services, including health and education applications, while launching a music platform that achieved the number 1 ranking on Google Play Store within just 5 days. Analyzed quantitative and qualitative data to track service progress and identified opportunities to increase annual product portfolio revenue by 20%

EDUCATION

BrainStation

Diploma in Web Development

Toronto, ON

Apr 2022 - Jul 2022

North South University

Bachelor of Business Administration

Dhaka, Bangladesh

2012 - 2016
