Toronto, ON, Canada

TECHNICAL SKILLS

Working Kowledge: HTML, CSS, Python, Flask, JavaScript, React.js, Node.js, Express.js, Ionic Framework, Web APIs, REST APIs, MySQL, PostgreSQL, Prisma ORM, Git, Github, Github Actions, AWS, Lambda, EC2, API Gateway, Cloudwatch

Exposed To: Next.js, Redux, Django, TypeScript, Angular.js, Bootstrap, Styled Components, Test-driven Development (Jest, Python Unittest), AWS SNS, GraphQL, Tailwind, Docker

EXPERIENCE

Full Stack Software Engineer   March 2023 – Present
multplAI (Stealth Startup)   *Remote, Toronto, ON*
Python, Flask, AWS, Lambda, EC2, API Gateway, Cloudwatch, Github Actions, Python Unittest

- Architected and implemented a serverless backend platform utilizing Python and Flask on AWS Lambda functions and API Gateway, resulting in improved scalability and reduced infrastructure costs.
- Led the development of automated tests for all backend endpoints, achieving over 89% code coverage and ensuring the reliability of the platform.
- Implemented NextJS 13's new App Router and Server Side Rendering, resulting in a 57% reduction in initial page load times compared to the original architecture.
- Developed and implemented a scalable and efficient job scraping platform utilizing Scrapy and Scrapeops, resulting in a scraping success rate of over 99% on various job sites.
- Utilized Github actions to implement CI/CD practices, reducing deployment time by an average of 40 minutes per release.
- Developed a Chrome plugin enabling seamless autofill of job application forms by integrating with a backend AI-powered API, streamlining the application process.

Frontend Engineer - Freelance   Feb 2023 – Aug 2023
Tidey Mitchener Consulting   *Remote, Toronto, ON*
HTML, CSS, Angular, Ionic Framework

- Developed a mobile-first and responsive front-end using Ionic and Angular, enhancing user experience and ensuring seamless accessibility across devices.
- Optimized communication channels with the backend to dynamically display data, resulting in significantly improved performance and response times by 67%.
- Successfully integrated external platforms for payment processing and email automation, streamlining the user journey.

Digital Services Senior Executive (Product Manager)   Feb 2017 – Feb 2021
Banglalink   *Dhaka, Bangladesh*

- Led strategic planning and execution processes, defining key metrics to drive business growth through apps and value-added services, consistently maintaining daily revenue above USD 75k
- Coordinated cross-functional teams and collaborated with technical teams to drive product development and formulated comprehensive distribution strategies for online and offline channels.
- Optimized customer journeys for a diverse portfolio of 100+ services and a music platform that achieved number 1 ranking on Google Play within 5 days. Leveraged data analysis to boost annual portfolio revenue by 20%.

EDUCATION

BrainStation   Toronto, ON
Diploma in Web Development   *Apr 2022 - Jul 2022*

North South University   Dhaka, Bangladesh
Bachelor of Business Administration   *2012 - 2016*
